## CONDITION OF THE MARKETS

An Old-Time "Bear" Raid Made on the Grain Market at Chicago Yesterday.

It Caused a Rather Heavy Dip in Prices an Unusually Active Trading-A Break in Cash Prices for Corn.

MONEY STOCKS AND BONDS. Quiet Day on the New York Exchange, with Simply a "Scalpers' Market,"

easy at 3 per cent. Prime mercantile paper, 434@612 per cent. Sterling exchange was dull but steady at \$4.8412 for sixty-day bills, and \$4.8714 for

NEW YORK, Ang. 10 .- Money on call was

The total sales of stocks to-day were 81,590 shares, including the following: Atchison, 5,000; Erie, 1,600; Lake Shore, 2,200; Missouri Pacific, 4,710; Northern Pacific, 3,300; Northern Pacific preferred, 5,028; Reading, 4,145; St. Paul, 5,500; Union Pacific, 2,050.

The stock market, to-day, owing to the absence of a large number of the prominent traders and brokers, was almost entirely given up to the professional element, and prices were first advanced and afterward let off to about opening figures, and the final changes are generally for insignificant fractions. The London market was quoted very strong, but first prices here were only slightly changed from last night's figures, but the temper of the room for the time being was very bullish, and in the first hour's trading there were marked advances scored in some of the specialties, of which Sugar Trust, Wheeling & Lake Erie preferred and Wabash preferred were most conspicuous, rising 1½, 15s and 1 per cent. respectively. Oregon Navigation later shot up 2¼ per cent., but the general list was dull and uninteresting from opening to close. Some animation was shown in Atchison, Burlington, Northern Pacific preferred and St. Paul, but in none did the extreme fluctuation exceed none did the extreme fluctuation exceed as per cent. The buying was mainly for the covering of "shorts," but later the selling of Sugar Trust by brokers, who are understood to act for the pool, knocked that stock off to below its first price, and the rest of the list soon followed, and the early advances were in most cases entirely wiped out. Both the C., C., C. & St. L. and Chesapeake & Ohios were comparatively quiet and moved over an extremely nar row range. The market finally closed dull Railroad bonds were quiet, though the sales reached somewhat higher figures than usual of late, being \$462,000. This was divided between a comparatively small num-ber of issues, and the movements of the day were without importance. A firm tone generally prevailed, but there were only two important final changes, and they were declines. Wabash general receipts lost 4, at 44. The sales of bonds for the week were \$7,131,000, against only \$4,884,000 for last

Government bonds were dull and steady State bonds were neglected. Closing quotations were:

the 25 per cent. rule. TRADING AT CHICAGO. The Ups and Downs of the Market, with the

77c, and at the close 774c was the

narket, being a net loss for the day on December of ac, and for the week of ac.

Corn was active and weak. Trading was

leavy, and the volume of business larger

than for many days past. Offerings were large, "longs" selling and "shorts" covering. The weaker tone was attributed

break in the cash market. The country holders were large sellers, and shippers sold freely early in the session. The market opened lec below the closing price of yesterday, was steady for a time, but seen rolled week and de-

for a time, but soon ruled weak and de-

clined without a reaction see, railied a little, became easy and closed so active, weaker than yesterday. Oats were active, weaker

to large movements and the

reulation, increase.....

Range in Prices of Leading Articles. CHICAGO, Aug. 10 .- For the last day of a dull week in wheat speculative trading was active. Everything favored lower prices, and another downward dip of 340 was witnessed before noon. September went to 754c and December to 774sc. So uniformly depressing were the surroundings that the bears appeared at last to have the courage of their convictions, and they went at the market with a rush right from the

higher, and closed steady with all sold. start. The decline was accelerated by the unloading of numerous lines of "long" wheat, some of which were pretty large ones, and by local parties that have all along been regarded as the most radical "bulls" on the floor. The impression that the government crop report would be more favorable than the last was so general that the market took on its weakness from that cause. The news of the most importance to the "bear" side was the clear, cool weather reported in Northwest. When the market got down around 7718@77140 for December, about noon, it hung pretty stubbornly for a time, and, though heavy, the decline was checked by good buying, principally by "shorts." Half an hour or so before the close it weakened again, this time touching

KANSAS CITY, Aug. 10.-The Live Stock Indi cator meports: Cattle-Receipts, 2,693; ship ments, 1,272. Market weak and a shade lower There was a good demand for stockers and feeding steers in excess of the supply. Good to choice corn-fed steers, \$4 \(\varphi 4.20\); common to medium, \$3@3.75; stockers and feeding steers, \$1.60 @3; cows, \$1.50@2.60; grass range eteers, \$1.60

Hogs-Receipts, 2,707; shipments, 174. Marstrong for light and steady for heavy and mixed. Good to choice light, \$4.25@4.35; heavy and mixed, \$3.90@4.20.

CHICAGO, Aug. 10.—The Drovers' Journal re-ports: Cattle—Receipts, 3,000; shipments, none. The market was steady; beeves, \$4.30 24.65; steers, \$3.50@4.40; stockers and feeders, \$2.25 @3.30; cows, bulls and mixed, \$1.40@3; Texas cattle lower at \$1.70@3.10; Western rangers,

mixed, \$4.25 \(\alpha 4.60\); heavy, \$4.15 \(\alpha 4.40\); light, \$4.40 \(\alpha 4.87^{\dagger\_2}\); skips, \$3.50 \(\alpha 4.60\).

Sheep—Receipts, 2,000; shipments, none. The market was steady; natives, \$3.50 \(\alpha 4.85\); Western. \$3.60 \$3.95; Texans, \$3.40 \$4.10; lambs, \$4.50 \$5.60.

and lower than for any time in ten years. The weakness and decline was due to continued free receipts. Free general selling for local and outside parties resulted, especially of the near futures, which were depressed by the large dierings of cash property and a decline of le in the market for samples. Prices for futures declined and losed at about justide figures. A fairly active trade was reported in mess park, with considerable fluctuations in prices within a narrow

range. Prices declined 10c during the early part of the day but rallied 5@712c later, and closed comparatively steady. Some interest was manifested in the lard market and the feeling was easier. Prices declined .05 @.0712c, and the market closed quiet at medium figures. A fairly active trade was reported in short ribs, and the feeling was comparatively steady. Early the market was weaker, and prices receded .0212@.05c, but rallied slightly and closed steady. The leading futures ranged as follows:

## LIVE STOCK.

Cattle Strong-Hogs Opened Active and Higher, Closing Steady-Sheep Unchanged.

INDIANAPOLIS, Aug. 10. CATTLE-Receipts, 300; shipments, 900. But few on sale. The market was strong at yesterday's prices. All sold at the close.

Export grades \$4.20\alpha 4.55
Good to choice shippers 3.75\alpha 4.10
Common to medium shippers 2.75\alpha 3.40
Stockers, 500 to 850 hs 2.25\alpha 2.75 Good to choice heifers...... lood to choice cows..... Fair to medium cows..... Hogs-Receipts, 2,000; shipments, 2,100. Quality fair. The market opened active and Mixed...... 4.40@4.60

Heavy...... 4.25@4.35 Heavy roughs...... 3.50-4.00 SHEEP-Receipts, 500; shipments, 700. But little doing for the want of stock. The market was strong at about the same prices as yesterday. Common to medium...... 3.50 24.50 Bucks, per head ..... 2.0023.00

Sheep—Receipts, 98; shipments, —. Market steady. Good to choice muttons, \$3.75@4; common to medium, \$2.50@3.50.

Hogs-Receipts, 10,000; shipments, none. The market was higher for light grades; others weak;

diums and heavy, \$4.60@4.70; Yorkers, \$4.80@4.95; pigs, \$1.95@5; mixed, \$4.75@4.85. ST. LOUIS, Aug. 10.—Cattle—Receipts, 300; shipments, 700. The demand largely exceeded the supply and prices were strong. Good to choice native steers, \$3.60 a 4.50; fair to medium, \$3.25@3.50; stockers and feeders, \$2@2.75 corn-fed Texans, \$2.50@3; grass-fed \$2@2.75 native cows and heifers, \$1.75@2.50. Hogs—Receipts, 200; shipments, 400. There was a good demand but not enough supply to make a market. The few bunches offered were snapped up at \$4.55@4.57\(^12\).

Sheep—Receipts, none; shipments, 1.500. The market was strong, but no supply. A few natives of 95 pounds sold at \$4.10@4.25; mixed lots \$3.55

EAST LIBERTY, Aug. 10.—Cattle—Receipts, 600; shipments, 600. Nothing doing; all through consignments. Two car-loads of cattle shipped to New York to-day.

Hogs—Receipts, 900; shipments, 800. Market firm; best light Yorkers, \$4.8024.90; fair, \$4.6524.75; grassers, \$4.5024.60; medium and light Philadelphias, \$4.6524.70; heavy hogs, \$4.4024.50. Two car-loads of hogs shipped to

\$4.40@4.50. Two car-loads of hogs shipped to New York to-day. Sheep—Receipts, 2,600; shipments, 3,000. Market steady at unchanged prices. CINCINNATI, Aug. 10.—Cattle—Receipts, 320; shipments, 120. The market was quiet and unchanged. Sheep-Receipts, 1,600; shipments, 2,250. Fair demand and steady. Lambs lower at \$3.50@

Hogs stronger. Common and light, \$3.75@ 4.65; packing and butchers', \$4.40@4.60. Receipts, 300; shipments, 620. INDIANAPOLIS MARKETS. The Trade of the Past Week Quite Satis-

factory for Midsummer. INDIANAPOLIS, Aug. 10. Inquiry among the wholesale men shows that the business of the week closing to-day has been very satisfactory for midsummer, and somewhat in excess of that of the corresponding week last year. Especially is this true with the wholesale grocers and hardware men. In values to-day there were but few fluctuations. Coffees and sugars are barely steady with a good distribution in progress. For sugars, as usual during the canning season, there is a large demand. Other staple groceries rule steady and firm. The hardware men report their trade handsomely in excess of that of the corresponding period last year, and better prices are realized. The flour market is slow for this season of the year and prices are very unsatisfactory to the millers. When there will be any improvment they are unable to state, much depending on the future of wheat. In fruits and vegetables the market is abundantly supplied. Apples, choice fruit, sell as low as \$1.75 per barrel. The nutmeg melons arriving are poor in quality and sell slow. Melons in good condition and good size, however, find ready sale. Tomatoes are scarce for this season of the year, but few good ones offered on the market. Butter is in light supply, and firm at quotations of to-day. The egg market is taking better shape, and losses when candled are not so large. The poultry market is somewhat heavy on liberal receipts.

GRAIN. The receipts of wheat to-day were 39,600 bu The Indianapolis Market Report says that the receipts show a small increase, and country offerings are free. The milling demand is fairly well supplied, yet good No. 2 red finds easy sale. We quote New No. 2 red, 7412@75c; new No. 3 red, 69@71c; rejected new. 63@67c for poor, up to 68 269c for choice samples; new unmerchantable, 56 259c, according to condition; August,

Corn—Receipts posted to-day, 8,400 bu; yester-day, 4,200 bu. The demand is largely for local use, although shippers report that there is some inquiry. Locally, mixed corn is wanted, and consignments are readily disposed of at full quota-

We quote No. 1 white, 3812739e; No. 2 white, 38½c; No. 3 white 36½c; if one color, 38½c; No. 2 color, 38c; No. 2 yellow, 36c; No. 3 yellow, 35½c; No. 2 mixed, 36¼c; No. 3 mixed, 36ç; ear, 3412@3512c.
Oats—Receipts posted to-day, 6,000 bu; yesterday, 4,000. Local jobbers are the only buyers, and they buy in a hand-to-mouth way. We quote: No. 2 white, 27 \$29c; No. 3 white, 26 \$27c; No. 2 mixed, 23 \$23\frac{1}{2}c; new rejected mixed, 19@20c; new rejected white, 21@22c. Bran-The market is dull. Shippers report is almost impossible to sell, except at buyers' fig-

ures, and those are anything but satisfactory. Shippers are bidding \$828.25 for spot or August shipment. Local dealers are paying \$9.

Hay—Choice timothy, \$12; No. 1, \$11.50; No. 2 not wanted; No. 1 prairie, \$7.07.50; straw, \$5.

SEED MERCHANTS. 78 & 80 East Market St., Indianapolis.

FRATERNITIES AND ORGANIZATIONS. . Odd-Fellows.

The new hall of Arlington Lodge will be dedicated on Wednesday by Grand Secretary Foster. There will be a grand reunion of the Odd-fellows of northern Indiana at Rome City on Wednesday. Canton Indianapolis will meet to-morrow night,

at Odd-fellows' Hall, in business session, Al members are requested to attend. The Patriarchal, Golden Rule and Royal Purple degrees were conferred by Metropolitan Encampment, on Monday night, on three candi-

The first degree was conferred on three candi-dates by Philoxenian Lodge Wednesday night. The second degree will be conferred next Wednes-The roster of delegates to the national conven-tion of Rebekah lodges is now being completed by the temperary secretary, John W. McQuiddy,

Capt. J. E. Bodine, of Canton Indianapolis, has been appointed by General Underwood to make arrangements with railroads at this point for transportation to Columbus. S. W. Meredith, of Indianapolis Lodge, died

last week, after a lingering illness. His remains were taken to Greensburg by a committee of the lodge, where they were interred by Decatur Canton Indianapolis is drilling three nights each week with a view of entering for a prize at Columbus. It is improving rapidly. Officers and chevaliers should be prompt in their attend-

ance on these drills. Daughters of Rebekah who will attend the national convention in Columbus, O., next month, should take traveling-cards with them. All members will be admitted to the convention who can properly prove themselves. They can-not, however, visit a lodge without a card. Any past grand who is also in possession of the Royal Purple degree in an encampment will be admitted to the Sovereign Grand Lodge during the session at Columbus, O., Sept. 16-21. The fare for single tickets is one and one-third for

the round trip. There is an effort being made to run an excursion from here, but it is not yet per-Kulghts of Honor. Victoria Lodge met last Monday evening and had a large attendance.

At the last meeting of Washington Lodge, after the work was finished, the degree team drilled in the secret work of the order. Marion Lodge has installed its officers for the ensuing term. It begins the term in good condition, and will do a great deal of work the rest of

Fraternity Lodge has five new applications on hand. It will have degree work at the next meeting, when a large attendance is expected If the laws of the Knights of Honor will permit the Victoria Uniform Commandery ought to

turn out in the parade on the occasion of the

laying of the corner-stone of the soldiers' monu-Grand Director W. F. Cullen is very attentive to the interests of the order, which in this State is growing very fast under his administration. The lodge to which he belongs has more than loubled in membership since the last Grand

An appeal circular has been issued by Misser Lodge, of Louisiana, Mo. It has been approved by the supreme dictator, and is for the widow and three children of Clede Baird, who died while under suspension from his lodge. He had been a member about seven years, and he and his wife being sick, failed to pay assessments 194 and 195. The lodge did not know of the facts until the time for reinstatement without re-examination had passed. His wife and chil dren are destitute, and the Knights of Honor propose to make them comfortable by a generous donation. This circular was also indorsed by the last Supreme Lodge.

Knights and Ladies of the Golden Rule. Members of Castle Hope visited Castle Good will Tuesday night.

Castle Goodwill initiated a candidate on Tuesday night. Several more applicants will be admitted at the next meeting. Castle Marion has initiated fourteen candidates during the past four weeks, and on next Wednesday night will admit five or six more. Castle Enterprise will also furnish three or four at this meeting on account of its meeting night being used by the castles in celebrating the tenth

anniversary of the order. The order's anniversary will be observed at a literary and musical entertainment, box social and ice-cream festival. An address will be given on the particular features of the order-what it has done in the past ten years and what it pro-poses to do in the future. The following persons will contribute to the literary and musical part will contribute to the literary and musical part of the entertainment: J. Burgess Brown, H. H. Moats, Miss Minnie Moore, Miss Coswell, Professor Newberg, of Lafayette, the Kline Orchestra, Master and Miss Collins, Claude W. Thompson and others. The exercises will be at G. A. R. Hall, corner of Washington and Tennessee streets, Thursday night. Admission will be free to all.

D. B. A. There will be a meeting of the council or Wednesday evening. A final withdrawal card has been issued to Jesse Braddock, Leota, Kan. Among the latest initiates are Samuel Hiseradt, Indianapolis, and Thomas Malia, Springfield, O.

The order is growing rapidly in Oklahoma and vicinity, some of the old members having moved

Since the removal of the Supreme Council from Urbana, Ill., to Indianapolis the D. B. Asso-The officers, President Sir Knight William Webb, Vice-president Sir Knight Z. F. Sharpe, K. of R. and S. John Laird and companions A. S. Hampton, G. McCleiland, H. K. Gorham and suggested that a bureau or agency is needed, so that direct communication may be maintained with all the outside banks. This would prevent, 8. W. Long, accompanied by their wives, took a pleasure trip to Peoria lately to witness the "Fall of Pompeti." Every one of the party was highly among other things, forgers operating at one place from successfully repeating the operation at another town in the State.

Knights and Ladies of Honor. Campton Lodge received and referred one application at its last meeting. Mr. Hought, of Indiana Lodge, left the city for Louisville, Ky., yesterday. A. J. Gillett went on the Chicago excursion the past week, and is now attending the K. of P.

encampment at Warsaw. Thomas Dodd, treasurer of Marion Lodge, visited Compton Lodge last Wednesday evening. He will represent his lodge at the session of the Grand Lodge, which begins Tuesday, at Jeffersonville. Lizzle Sherwood will represent Compton Lodge at the Grand Lodge, and some twenty other members of the order will attend.

WHAT PEOPLE OUGHT TO EAT

Variety of Food for the Season Recommended by Those Learned in Dietetics.

Alcoholic Drinks and Ice Water Should Be Avoided-Fruit Tends to Keep One Healthy and Active, with a Good Conscience.

This summer Indianapolis has been so favored as to weather, no days of extreme heat, with frequent cooling rains and the balmy south wind almost constantly blowing, that it has had all the advantages of first-class summer resort, except the expense that attaches to estivation at the lakes or seaside. There has been little sickness and midsummer holds no prophecy of disorders yet to be. This, however, is the very time when sanitary precautions should be taken, when the head of the household in making purchases of food supplies should bear in mind the poet Saxe's admonition, in which, after citing an example of one who ate and drank not wisely but too well-

If you'd avoid these horrid incubi Beware what you eat, and be careful What drink you buy.

Meeting Dr. John Chambers, the reporter asked him what he considered the right things in the line of dietetics, not for invalids, but for people in fairly good health. The Doctor looked surprised. He is not in the habit of prescrib ing for people who are in health. That admirable system is restricted to China, where it has flourished for 4,000 years, enabling that peculiar people to increase and multiply until they now compose about one-seventh of the population of the planet. "What is good diet for well people?" repeated the Doctor. "I should say potatoes are always good; so are bread, milk and butter; also meats, especially beef and mutton—and lamb." The last viand was named with hesitation, the Doctor fearing by his pre-scription to aid in the destruction of this animal, which will have to flee to the mountains if the experiments suggested by Dr. Brown-Sequard's discovery are every where pursued with the same vigor as in Indianapolis. "In vegetables," continued the Doctor, "we have this year a superabundance, and they are excellent. There is also a great variety of fruit, both of which are healthful. Even the poorest can have the best of food this year. I will say that those who are in the habit of using liquors or beer do themselves great injury in more ways than one. I suspect that in many families, especially among the poor people, as much money is spent for beer or for liquor as for food supplies. This

is both wasteful and harmful."
Dr. Joseph W. Marsee was also asked the question Dr. Chambers answered. "You know," he replied, "that my business is surgery, so I am practically away from the food question. When a healthy man is injured in an accident the matter of diet largely regulates itself in his case. He can no longer eat strong food, and what is best for him suggests itself, as does the quantity which he is capable of eating."

"Eat of vegetables, especially," said Dr. G. W. Coombs, "and very sparingly of meats. Such drinks as coffee and tea are regarded as very stimulating, especially in the summer months, and are not good for children. In fact, they are too much indulged in at all times. One should be careful, bathe daily, and not eat too much. "Does it make any difference," inquired the interviewer of a Christian scientist, "what the patients who are treated by your

"No, sir; not at all," was the prompt Does it make any difference what they

The doctor grew very red in the face, repeated the question, and replied: "Does it make any difference what they drink! Yes, sir; I should think it did. Of course it does." The interrogatories were not con-

"In regard to drinks," said Dr. Allison W. Maxwell, who was next interviewed, "cold water, not ice-water, lemonade and other acid drinks are healthful. In some cases I find that soda-water, which is ice-cold, with ice-cream, does not agree with the drinkers.

Milk is nearly always good. When it does
not agree with the drinker, a little limewater may be added. Iced milk is objectionable. As to wines, beer or liquor, I do not think them necessary to any person in health. They are remedies sometimes, but should not be used as beverages. Nature intends that fruit should be eated plentifully, and this year the supply is abundant. Fresh, ripe fruits are healthful to most persons, but some have to exercise caution, because of acquired stomach Dr. Dan W. Thompson, oculist, was also

interrogated on the diet question. have," said he, "incidentally, a great deal of diet to look after, especially in the cases of women and children. Many diseases of the eye are consequent upon stomacl troubles; that is, they are aggravated by them. There's the disease that prevails considerably among children, known as blenhoritis marginalis-'

"It is a disease of the little glands that Inbricate the lashes of the eye. It is quite common in children. Those who have it crave sweetmeats, pies, candies, etc., the very things they should not have. What they need is a diet that will be easily as-

"I think," said Dr. Frank C. Ferguson editor of the Indiana Medical Journal "during the warm months people should feed chiefly on vegetables and fruits, eating but little meat and drinking nothing but cool water or milk, not iced water or iced milk. Tea, in my opinion, is not a healthful drink. The old-fashioned prescription, keep the head cool and the bowels regular, with a clear conscience, will reduce sickness and mortality to the minimum. All alcoholic drinks should be

avoided, even light wines, such as claret and the cool and foaming beer." It was impossible to keep it off any longer; it is the sole absorbing topic among the medical fraternity, and, though the reporter had been specially commissioned to get talks on dietetics, the lamb question, like the little lamb that followed Mary to school, followed him about and would not depart, no matter how often he might say

"I'll tell you," said Dr. Ferguson, "what is likely to result in the use of this lamb elixir in the hands of inexperienced or careless doctors, from the injecting of this

rejuvenator, as it is called. "Pyemic abcesses, blood poison, lock-jaw and tuberculosis; the last, if there is anything in the germ theory of disease. These are the principal things. There may be others. Such injections should only be made by men who are thoroughly alive to the importance of antisepsis and thorough cleanliness. I am afraid of this slaughter of the innocents. The result may be that the sheep will in a few years become as nearly extinct as the North American

"In careful and expert hands is there any "Where it is properly prepared and pro-perly injected into the cellular tissue there is no danger to the circulation, but if it should, through ignorance or carelessness, be injected into a vein death would probably be induced by the formation of em-boli or plugs cutting off the circulation in vital parts, especially in the brain. A lit-tle plug, smaller than the head of a pin will be sufficient to cut off circulation in the brain and produce paralysis, insanity, softening of the brain, convulsions and

A Bankers' Association. Bankers of Indiana, outside of Indianapolis, are talking about forming an association for mu tual protection. They say they want relief from exactions of city banks, which they claim charge excessive exchange and commissions. It is also

The Assignment Put Him to Sleep. "Let me tell you a good joke on one of your fraternity," said an officer at police headquarters to a Journal reporter yesterday. "About two nights ago one of the evening papers detailed a reporter to the station-house with instructions to write up a general article on a night's happenings here. He was permitted to quit work early in the afternoon in order to get a little sleep by way of preparation for his task. Well, he came down here about 10 o'clock in the evening, and

took a chair there in the ante-room where he could see without being seen. Presently we noticed that he had fallen asleep, and we thought, of course, he needed rest, so we didn't disturb him. He dozed on all A SCHOLARS STORY

night, and didn't open his eyes until nearly roll

call, which is a long time after daylight. When he did awake you can imagine his feelings. The poor boy declared at once that he knew his employers would find it convenient to do without his services, but I guess he came out all right. But his paper didn't get the article."

DEFECTIVE SEWERAGE.

Pogue's Run Regarded as the Beginning of a

System for Perfect Drainage.

The deficient sewerage system of Indian-

apolis is becoming a matter of comment.

For a city of more than 100,000 population

it is to many a cause for surprise that there

are only between fifteen and twenty miles

of what might be called sewerage within

the city limits. This, of course, does not

include the smaller and cross-line sewers.

In the heart of the city there are four main

drainage lines. One comes from the

north down Illinois street and

meets a sewer of eight feet diameter

on Washington street, which runs from the

Female Reformatory. Both join the Ken-

tucky avenue line, also eight feet in diameter, and emptying into the river. The other main line is along South street, join-

ing the Kentucky avenue sewer near the

river. North Pennsylvania street and Massachusetts avenue, to Bellefontaine street, also have a line of three feet in diam-

"But the main trouble about our sewers,

said Mr. Phipps, of the city engineer's office.

is the way they were originally laid out.

The whole system is wrong, from the begin-

ning. Instead of running four or five large sewers, the plan should have been to

utilize Pogue's run. It is a natural

drain and affords opportunities that no amount of artificial work can equal. In

time the city will have to use it anyway.

It would cost nearly \$1,000,000 to make a sewer out of the stream, but it would be a million well spent. We have people coming in here every once in a while, complaining that a certain sewer is clogged up. I my-

self have seen one so full that the water

would throw the man-hole lids five feet in-

to the air. But it is a mistake to think the

pipes are clogged. The only cause for the

overflow is that the sewers are not large

enough to admit the amount of water that

goes into them. In other words, the means

"You think the utilization of Pogue's run

"Yes, I do. The stream is the best means

we have of draining the city, and I regard it only as a matter of time before we will

have to fall back upon it. There is a grow-

ing demand for better drainage here, and

Pogue's run is the only means of getting it on anything like an economical basis."

A ROW OVER A DEBT.

An Assault Made by a Creditor and Then by a

Crowd Upon Samuel Howardton.

A fight that may terminate fatally oc-

curred at Acton yesterday afternoon.

About seven years ago James Hanahan, of

Needham's station, paid a fine of \$17 for

Samuel Howardton, who was at that time

in jail at Franklin. All except \$6 had been

repaid, and yesterday Howardton came to

Acton, and was in Bragmeier's saloon

when Hanahan entered with a club in his

hand, and at once began abusing Howard

ton, and reproaching him for not paying

the debt. After some threats on the part of

Hanahan, Howardton went out by the back

way of the saloon, and, to avoid trouble,

hid himself in a freight car standing near.

Hanahan soon discovered him, and, jumping in the car, told him he would have to

have the money or he would whip him. Howardton then struck him on top of the

head with a very dull hatchet, inflicting a contused wound of two inches in length. The blow knocked Hanahan senseless, and

he was carried to the office of Dr. J. W.

Spicer, where, in a few minutes, he was able to sit up while the wound was being

dressed. Meanwhile a crowd having gathered around the car in which Howardton

still remained, one of them jerked him out, and immediately the whole gang began to pound him with stones and sticks. At-

tempting to follow him into the saloon,

they were met at the door by the

bar-keeper, who, with a shot-gun in

hand, drove them away.

at the back-door, where he was taken in charge by friends and con-ducted to a place of safety. He is very

seriously if not fatally wounded. One

QUEER BAROMETERS.

"I can always tell when its going to rain

half a day ahead of any change in fair weather," said champion George Slosson as he was knocking around billiard balls in

the Columbia rooms just after the recent

"How is that?" asked a bystander, getting

"Why, there isn't a better barometer in existence than an ivory billiard ball or a good billiard cue," the billiard expert re-

plied;" "they are better than a favorite

"A ball always rolls slow and with diffi-

culty over the cloth when it is going to rain.

Ivory is so sensitive to changes of tempera-

ture, particularly from dry to moist, that the effect is felt almost instantaneously.

The cue will get cranky, too, when there's going to be a change, long before the damp-

ness is perceptible in any other way. An-

other peculiarity of the ivory globes is their tendency to become egg-shaped. They contract at what are called the top and bot-

tom polls, and swell out at the sides, so

that you might as well play with potatoes,

f you don't watch their idiosyncrasies.

They are worse than old men in their sus-

ceptibility to draught. A draught will crack the ivory and make it chip off quick

as a wink, and, like old folks, you can never

get the spheres acclimated to these

draughts. Just take a billiard ball and

study its behavior, and you can beat the

clerk of the weather prophesying. You can

would remedy this?"

Overwork Detrimental to Mind and Body Alike.

The Case of Miss Henreita Michels Carefully and Vividly Stated-A Restoration.

There comes a time in every human life when the changes and development are both rapid and mysterious. Like a flower, changing from the bud to the blosom, it is easily led from the path of healthful development, and slight influences, that at another stage of development would scarce be noticed, now are potent factors to rapid

disintegration. Too much care can not be expended in watching and directing the opening of these human flowers, and the slightest deviation from the natural and healthful course should be made affairs of

DEEPEST CONCERN to those having such a charge.

"It was about three years ago that I first noticed that my health was failing. I became languid and listless with little concern of what was happening about me. I would take frequent colds which always affected my head and throat most," said

Miss Henrietta Michels, a prepossessing young lady of eighteen summers, to the writer during a recent interview. "My head became dull and heavy, and the nose was so stopped up that I was compelled to breathe through my mouth. I then discovered that I was getting hard of hearing and it was necessary for any one speaking to me to speak very loud, and to often repeat. My memory was bad and it was

A GREAT EFFORT for me to keep up my studies. At times my throat would become very sore and I would have to hawk and spit a great deal. There was a dull, heavy pain in the stomach and my appetite was very bad, so that I scarce-ly ate enough to sustain me. My sleep was light and broken, and I would always get up tired and exhausted. I tried many remedies and found very little relief. Knowing of the many favorable results from the Blair Treatment I determined to place myself under the treatment and I have many

TO BE THANKFUL for so doing. My hearing has been restored perfectly; my head and throat are clear and well. I do not have to hawk and spit as I did. My appetite is excellent and my sleep is sound and refreshing and I feel that I am entirely well." Miss Henrietta Michels lives at No. 25 Dorman street, where she may be found and this statement verified.

Office at 203 North Illinois street. Hours -9 to 11 a. m., 1 to 4 p. m. and 7 to 8 p. m. Sundays, 9 to 11 a. m., 2 to 4 p. m. Consultation, \$1. No letters answered unless accompanied by 4 cents in stamps. Address all mail to Blair Treatment, 203 North-Illinois street, Indianapolis.

summer and fall, and having eaten, drunk and slept during many months with the star-spangled banner in one hand and a tin horn in the other, this city of dizzy circles finds herself at the end of her decorative

string. Getting Attention Abroad.

throw made an ugly wound back of his left ear; another broke his nose and otherwise marred his face, and by a third he was hurt in the small of the back. The sheriff was "I'll tell you what I saw in Manchester, England," said a Michigander who lately telegraphed for to arrest Howardton, but it is thought his services will be utilized in returned from a trip abroad. "On the hotel register I found the name of 'C. Sidney Smith, U. S. A., embassador to England and France and S. P. D. to the Czar of Russia.' It was a puzzle to me and I smelt a mouse, but I waited to see him before giv-Billiard Balls and Billiard Cues Are Better ing anything away. After a few hours he called at my room. Then I found him to be an ex-drummer for a Chicago crockery house. He had saved up a few hundreds

and was making the tour. "'What induced you to register as you did?' I asked after a bit. "'Simply to receive the respect and con-

sideration due me,' he replied. "Does it cheapen your bills?" "'No, not to any extent; but it gives me the best for my money, and I have free carriage rides and many invitations out to dine. A man who registers over here as plain Mr. Smith or Brown gets only common. I'm off for France next week, and I shall register there as "Special Envoy of the American Congress and Jim Dandy Representative of 70,000,000 Americans." I'll get quail on toast when you fellows have only bacon. Well, so long. I'm off to dinner with a big manufacturer, and to-morrow I'm to ride out with an M. P. and a duke. Take my

advice and hitch on a title.'

Advice to a Young Man. Robert B. Mitchell pleads for a divorce on the ground that he doesn't know his wife by sight. If what Robert says is true a divorce is really due him, but at the same time the judge should caution him against contracting a pernicious habit of marving young women who are such utter strangers to him that he can't recall their faces two hours after the marriage service. This may be pardoned once in awhile, but it is a bad practice, and is certainly no way to build up a happy home.

An Intelligent Class.

"Do any professed church members buy and read these Sunday papers?" asks Dr. Cuyler in the Evangelist. They certainly do. They advertise in them, buy them and read them; in fact the church people of the country support the Sunday papers very
